

## **12 Month Health Warranty**

We guarantee the puppy is in good health, and has had its first round of immunizations. The buyer has seven days from the day they pick up the puppy to take it to a veterinarian for an examination. If the puppy is found to be in poor health, the buyer has the option of returning the puppy to the seller, at buyer's cost, for a full refund. The buyer will provide a written statement from a licensed veterinarian clearly stating defect or illness. If the puppy is not taken to a licensed veterinarian within the seven days from date picked up, the health warranty is void.

We warranty all dogs for 12 months from date of birth. If your dog develops a hereditary disease that makes it unsuitable as a pet or in need of extended veterinary care, please contact us immediately. You must provide a note from a board certified veterinarian. We do have the right to require a second opinion from a veterinarian, of the seller's choice, at the seller's expense. The purchaser must notify the seller within two business days of the veterinarian examination. To have a valid claim the purchaser must provide the seller a statement from the veterinarian that diagnosed the condition of the dog, along with documentation that our vaccination protocol has been followed. We will either (1) replace the dog with a puppy of equal or lesser price, to be chosen by the breeder, or (2) refund half the purchase price of the puppy. Shipping fees will not be refunded, and if it becomes necessary to ship a replacement puppy, those fees are to be paid by the buyer. If the puppy is euthanized or in any way disposed of, without a second opinion from the seller's veterinarian, the buyer waives all rights to a replacement puppy or half the refund.

Please note that puppies may pick up common parasites. This warranty does not include viral illnesses, infections, improper bites, hernias, hypoglycemia or common parasites such as Giardia, coccidia, roundworm etc. We do everything in our power to prevent and eliminate these parasites by putting dogs and pups on a strict de-worming program.

If the puppy should die from a suspected congenital defect, that the parents were tested for, within the 12 months of its date of birth, an autopsy must be performed at the buyer's expense by a licensed veterinarian acceptable to the seller's own veterinarian. If the autopsy shows a congenital defect as the reason of the death, the seller will provide another puppy from the next available litter of equal or lesser value to the buyer. A written statement from the Veterinarian must be provided. This warranty is void in the event of an undetermined or inconclusive diagnosis.

This warranty is non-transferable.

**OUR PUPPIES ARE THOROUGHLY CHECKED BEFORE LEAVING TO NEW HOMES. THEY ARE GIVEN A HEAD TO TOE HEALTH EXAM WHICH INCLUDES VACCINATIONS AND DEWORMING.**
